

DRIVING TO A MORE SUSTAINABLE FUTURE

BENEFITS FROM COMMERCIAL TRUCK DRIVER DEVELOPMENT

USE OF SAFED (SAFE AND FUEL EFFICIENT DRIVING) TRAINING PROGRAMMES LEADING TO RECOGNITION VIA APPROPRIATE QUALIFICATIONS PER NEW ZEALAND QUALIFICATIONS AUTHORITY (NZQA)

"The driver's right foot is the biggest influence on fuel consumption."

"Fuel consumption is the easiest parameter to measure"

"Driver development needs to be approached like any other investment decision."

"Whatever the improvements gained on a training day, one of the challenges for management is to sustain and build upon any of those improvements."

Management Tools can include:

Driver league tables – Self-financing fuel bonus – Team prizes – Individual driver prizes – Telematic systems

"Research suggests that a correctly structured and delivered programme aimed at improving a driver's skills to improve fuel efficiency does work."
