

IPENZ Transportation
Conference 2013

Lessons for the AITPM Conference

April 2013

What is AITPM?

- Australian Institute of Transportation Planning and Management
- *Mission is:*
"Growing Traffic Skills and Knowledge to Deliver Sustainable Transport."
- Membership around 550
- Focus on traffic and transport planning and management
- Close professional partnership with IPENZ
- Sponsorship available for both conferences

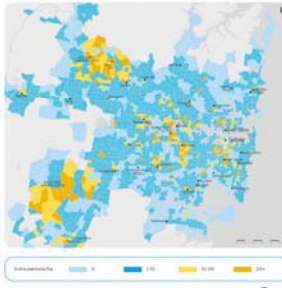

AITPM Conference 2013

"The Traffic & Transport Merry Go Round"

Sydney

AITPM Conference 2013

Presentation Overview

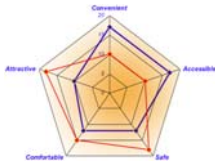

- Similarities between the two industries
- Current Australian projects and innovation
- Lessons learnt and how they can be applied in the NZ context

Paper Highlights

Active Modes and PT

- Wynyard Bus and Streets
- Gold Coast TRAMS and CAMS
- Parramatta Case Study

Paper Highlights

“Regional Centres”

- Community Buses
- Curtin University Case Study

Paper Highlights

Efficiency and the Economy

- Freight
- North West Sydney Rail Project

Key lessons and application in NZ

- There is a need to remove the perception that transport project benefits come from single occupancy private vehicles
- Transport begins the moment a person walks out their front door, whether on foot, bicycle, wheelchair etc
- Transport guides the creation of spaces and increasingly we need to integrate our transport needs with land use and urban design
- We need to work with each other to provide optimised public transport across providers

AITPM Conference 2013

Special thanks to IPENZ and AITPM
