

Terminal Mode Hierarchy at Auckland Airport

Road user hierarchy

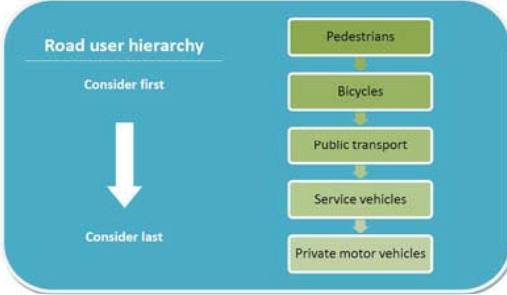

1. Walking
2. Cycling
3. Public transport
4. Freight
5. Private motor vehicles

Different way of thinking about transport priorities

<p>Consider first</p>  <p>Consider last</p>	Pedestrians
	Cyclists
	Public transport users
	Specialist service vehicles (e.g. emergency services, waste, etc.)
	Other motor traffic

Road user hierarchy

So what is a mode (or user) hierarchy?

28 March 2014
