

City Rail Link

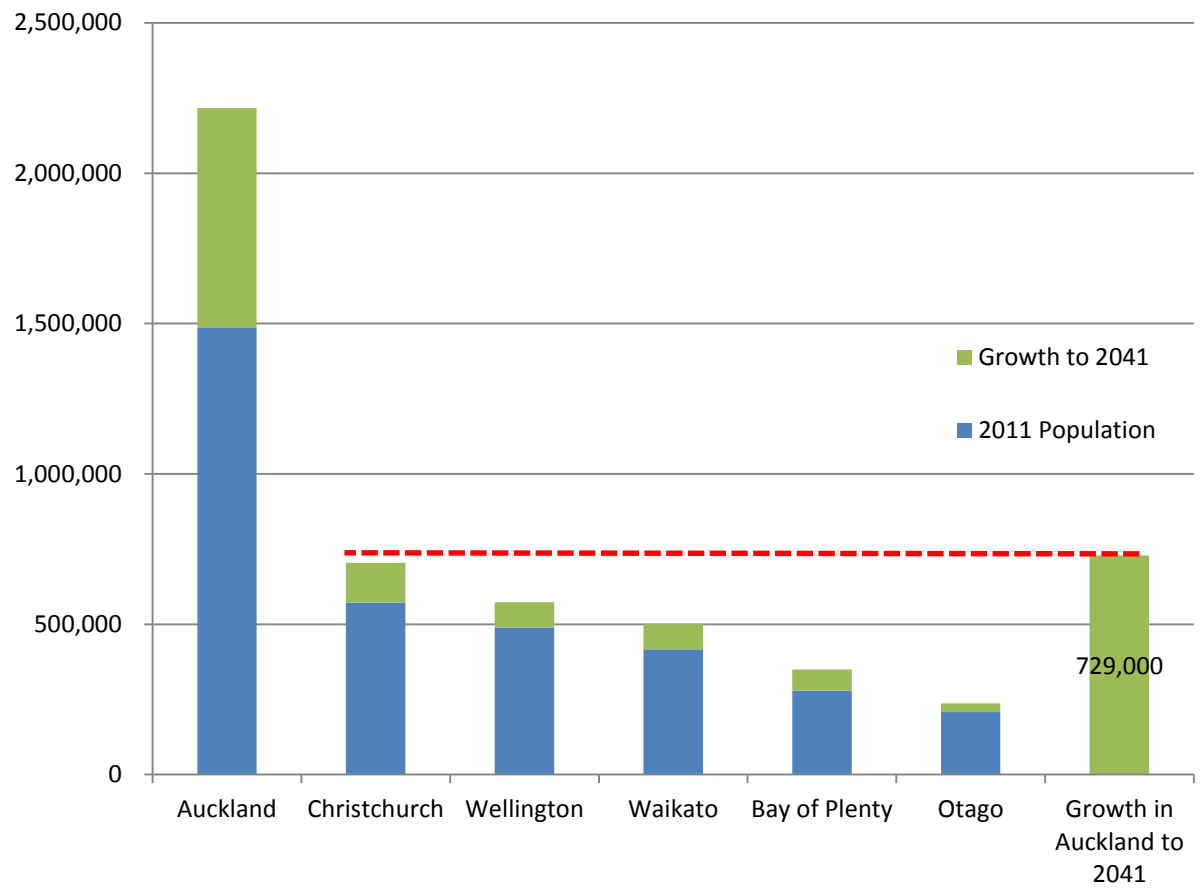

IPENZ March 2016

Auckland in 2041

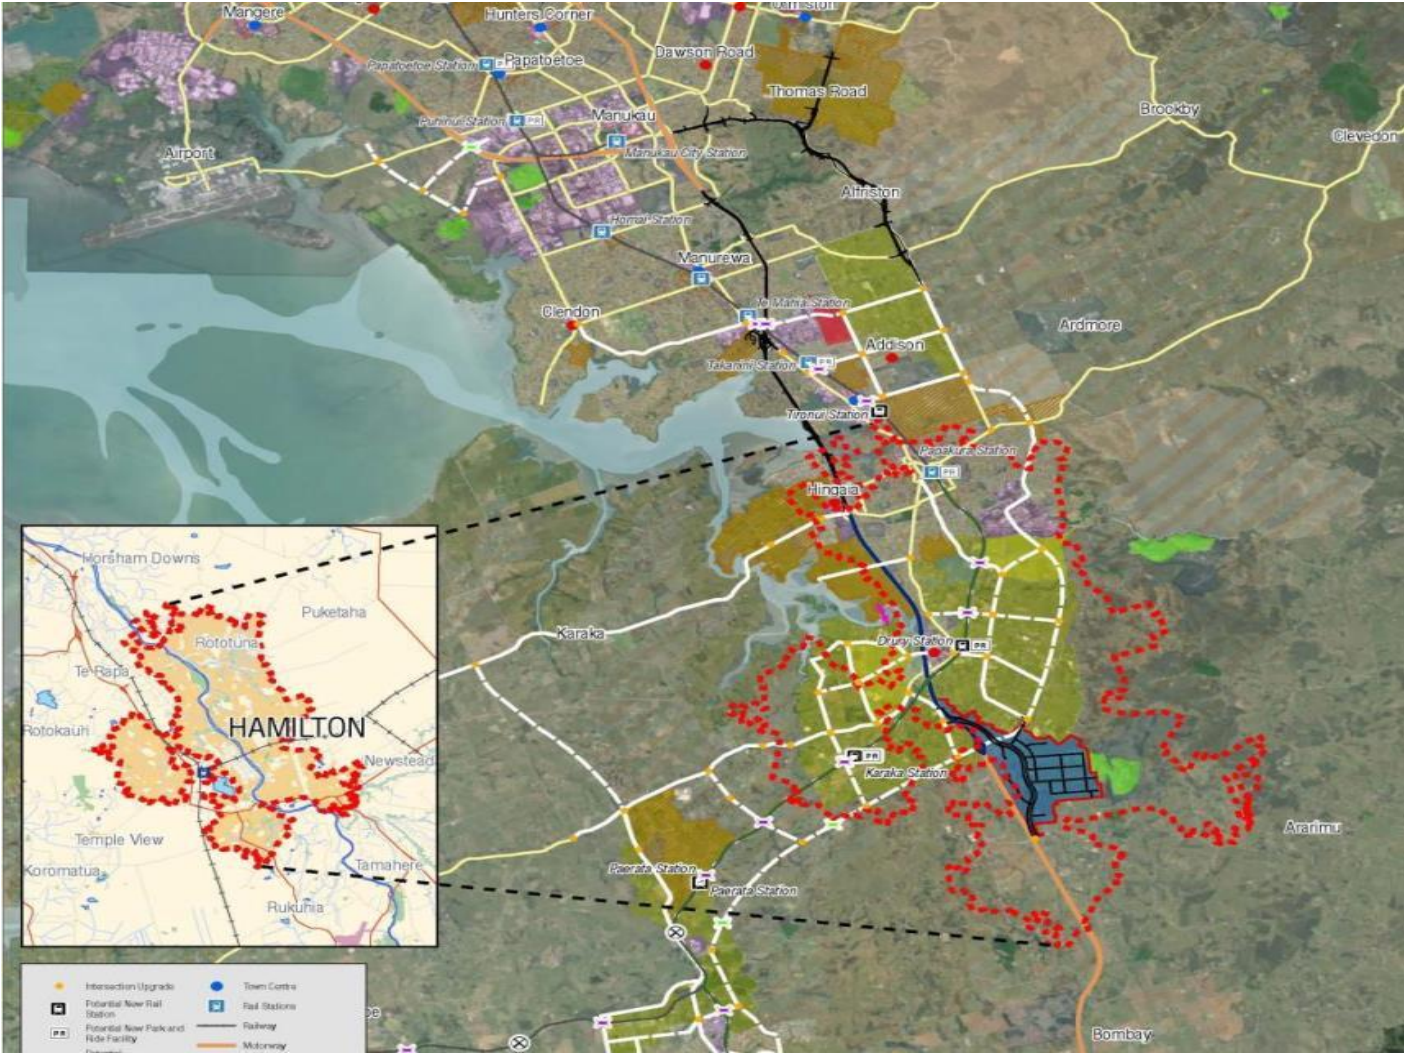

Auckland is pivotal to the social, economic and cultural development of New Zealand

- More than 700,000 new residents
- An extra 400,000 dwellings
- Twice as many city centre and city fringe residents and employees
- City Centre student numbers up by 30%
- City centre producing 25% of Auckland's GDP - currently 17%

Auckland's growth in perspective

We are adding the equivalent populations of Wellington and Christchurch to Auckland in the next 30 years

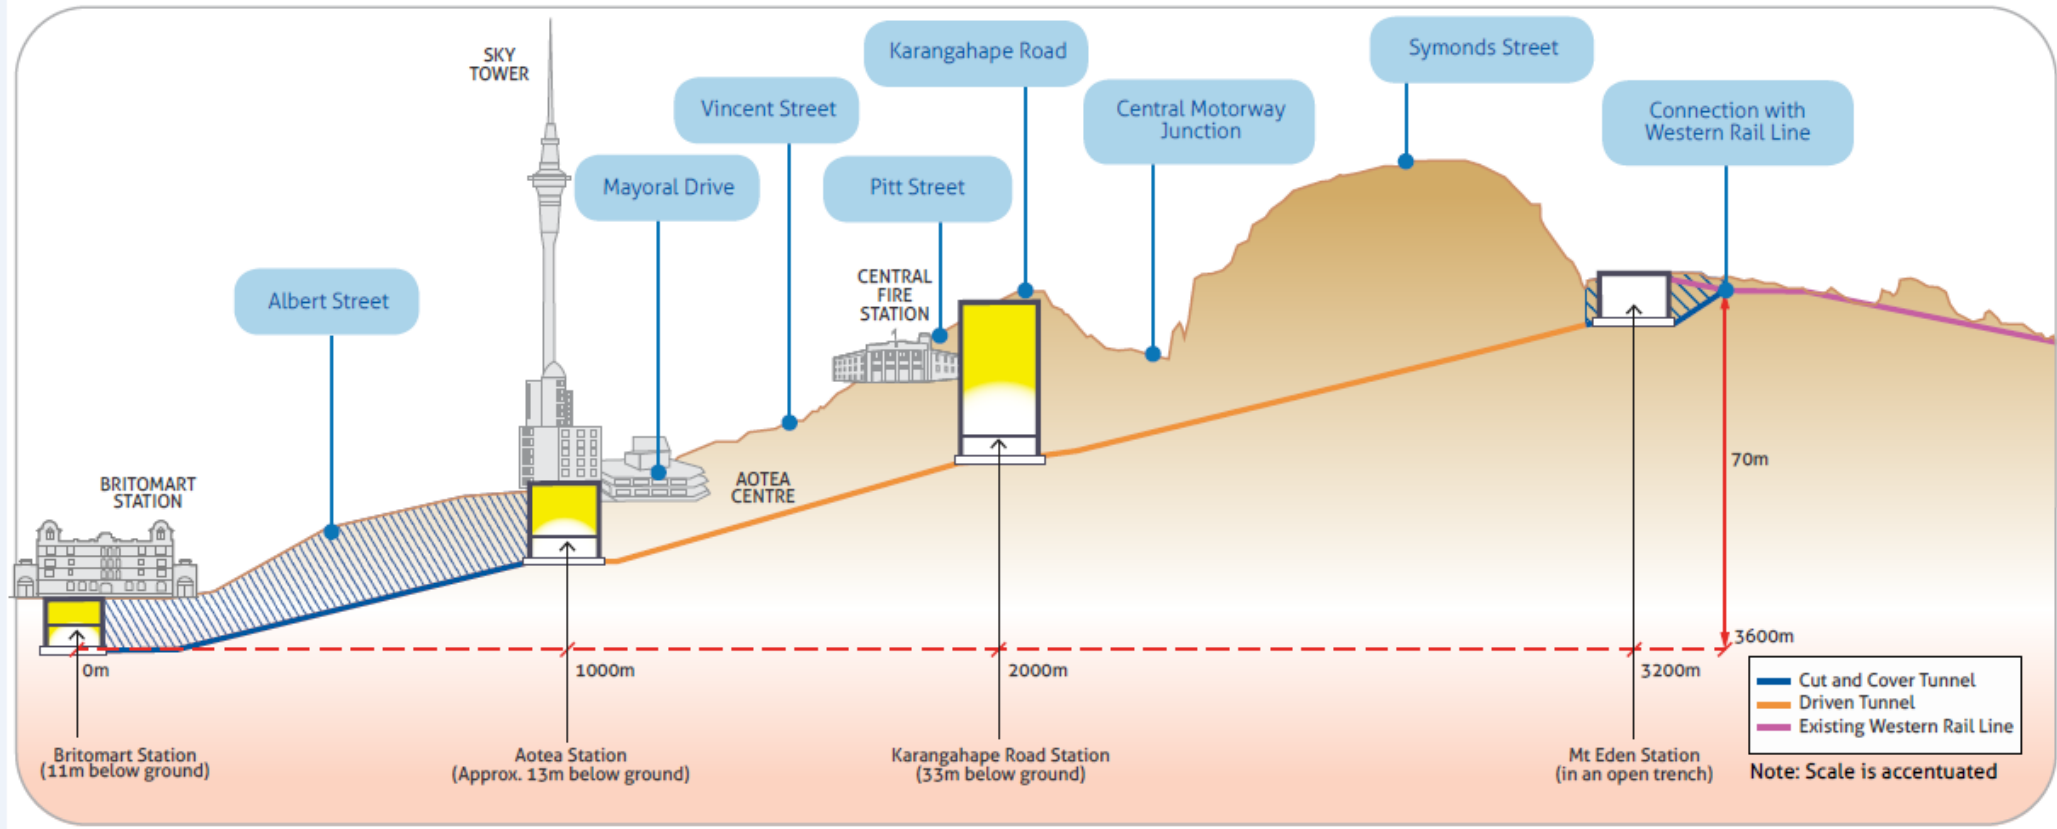

Auckland rail patronage growth- 25% last year

Vertical alignment

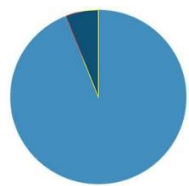

Travel time savings

Travel Times to City Rail Link Stations

From	To	Travel by train / bus (minutes)			Percentage improvement in travel time
		Before CRL	After CRL	Reduced travel time	
New Lynn	Aotea Station	51	23	28	55%
Morningside	Aotea Station	39	14	25	64%
Onehunga	K'Road Station	47	27	20	43%
Manukau	K'Road Station	61	42	19	31%
Newmarket	Aotea Station	27	10	17	63%
Britomart	Mount Eden	16	9	7	44%

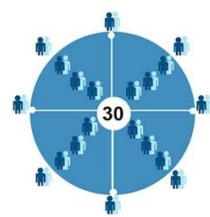

Citywide benefits

An essential component of Auckland's transport network (7% of the planned \$40 billion spend to 2040)

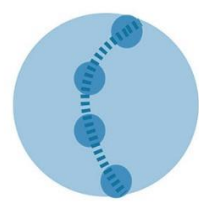

Aligns rail capacity with SHAs, a catalyst for integrated land use development around the stations

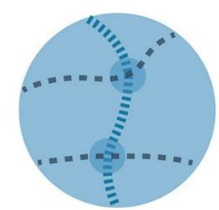

Doubles the number of people within 30 minutes travel of the city centre

Greater access to a wider range of higher paying jobs, and for employers a greater pool of talent

Creates a better connected city centre, fringe and region

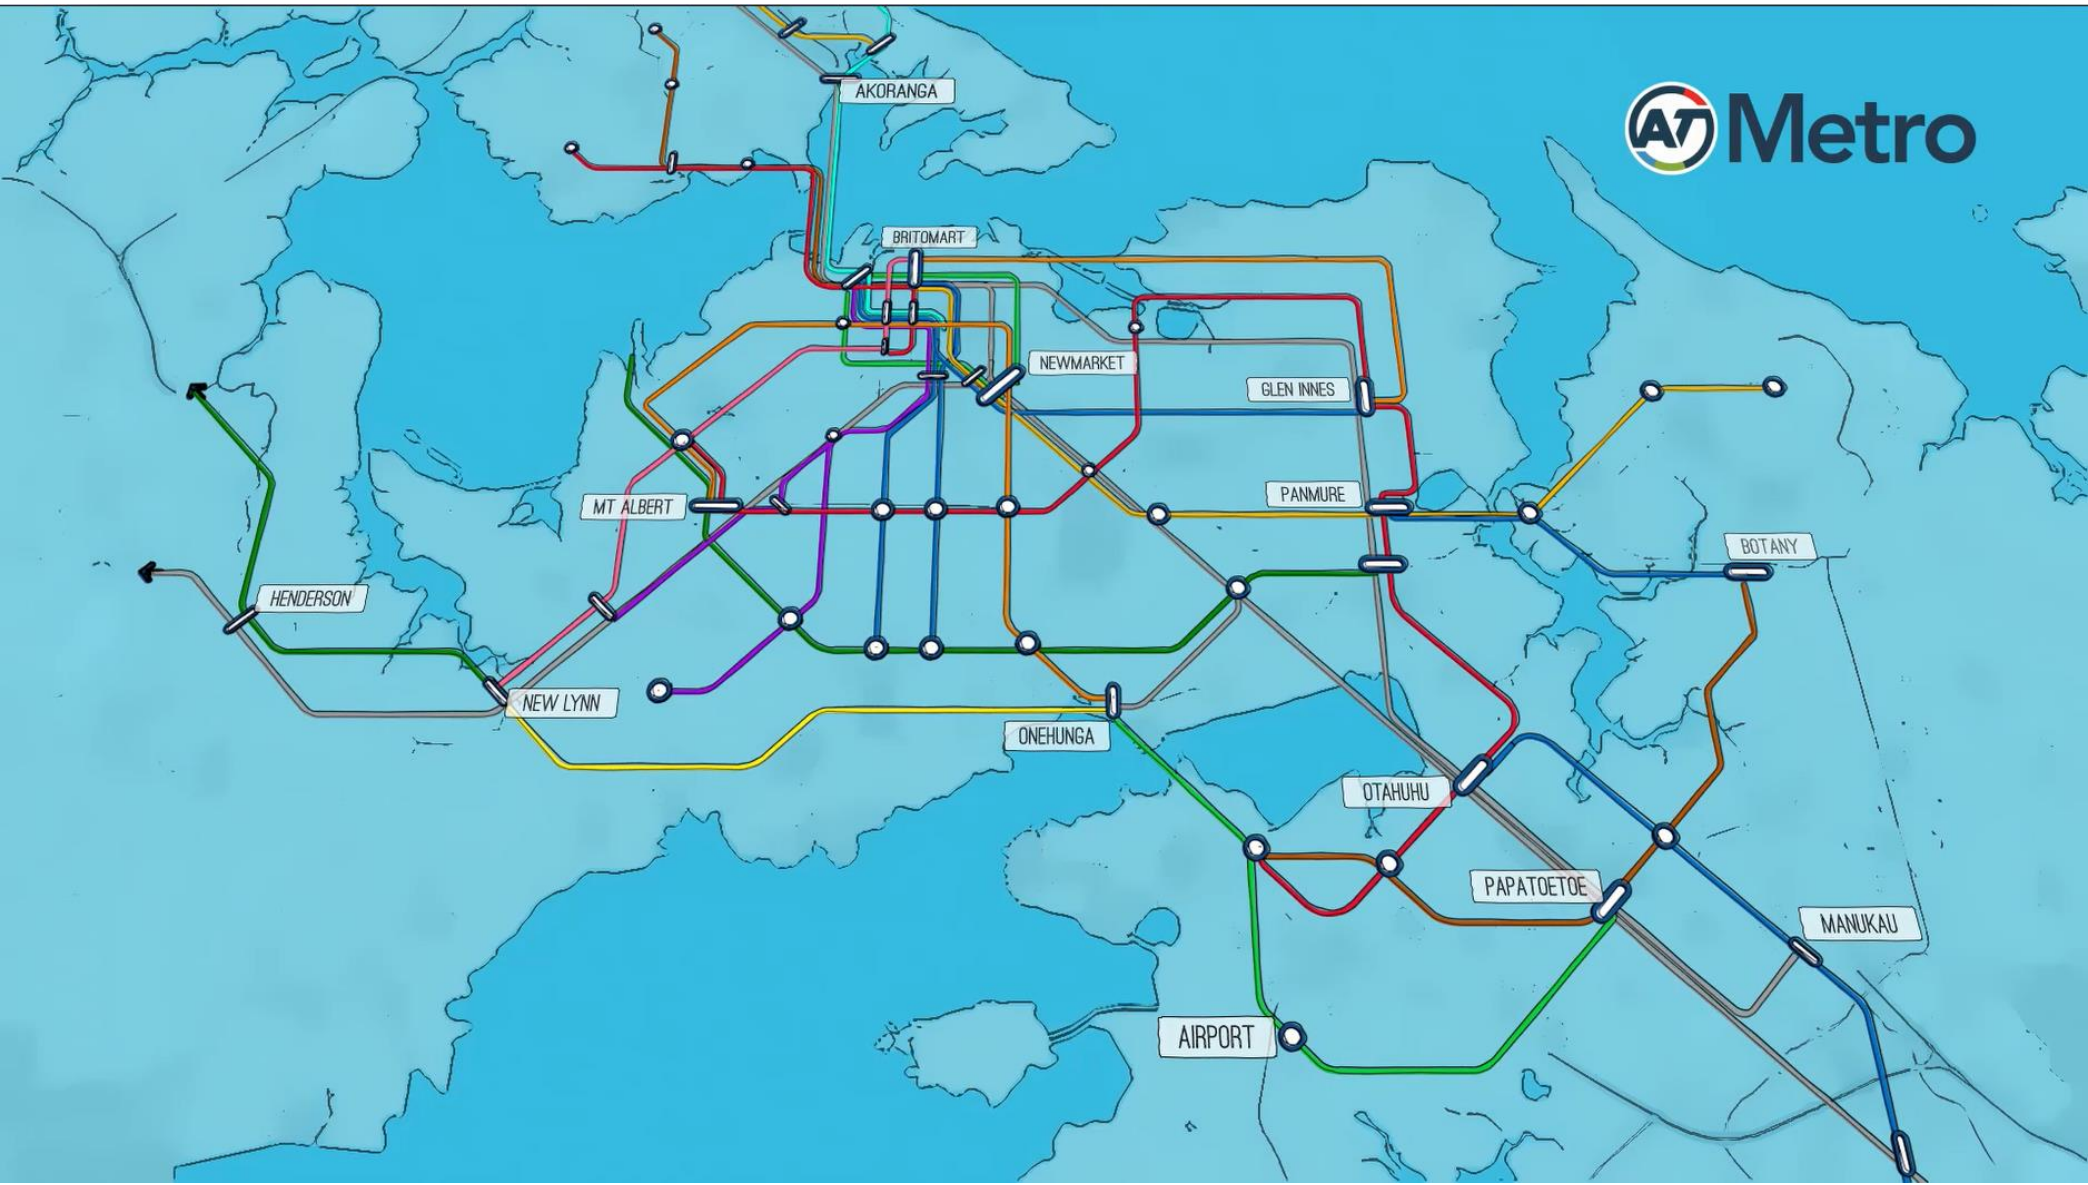

Unlocks rail network - 50% more capacity across the region and more than double at Britomart

Complements new train/bus interchanges across Auckland for easier connections

Reliable and efficient public transport provides a real choice for commuters

Albert St developments- 170K sq metres and growing ¹⁰

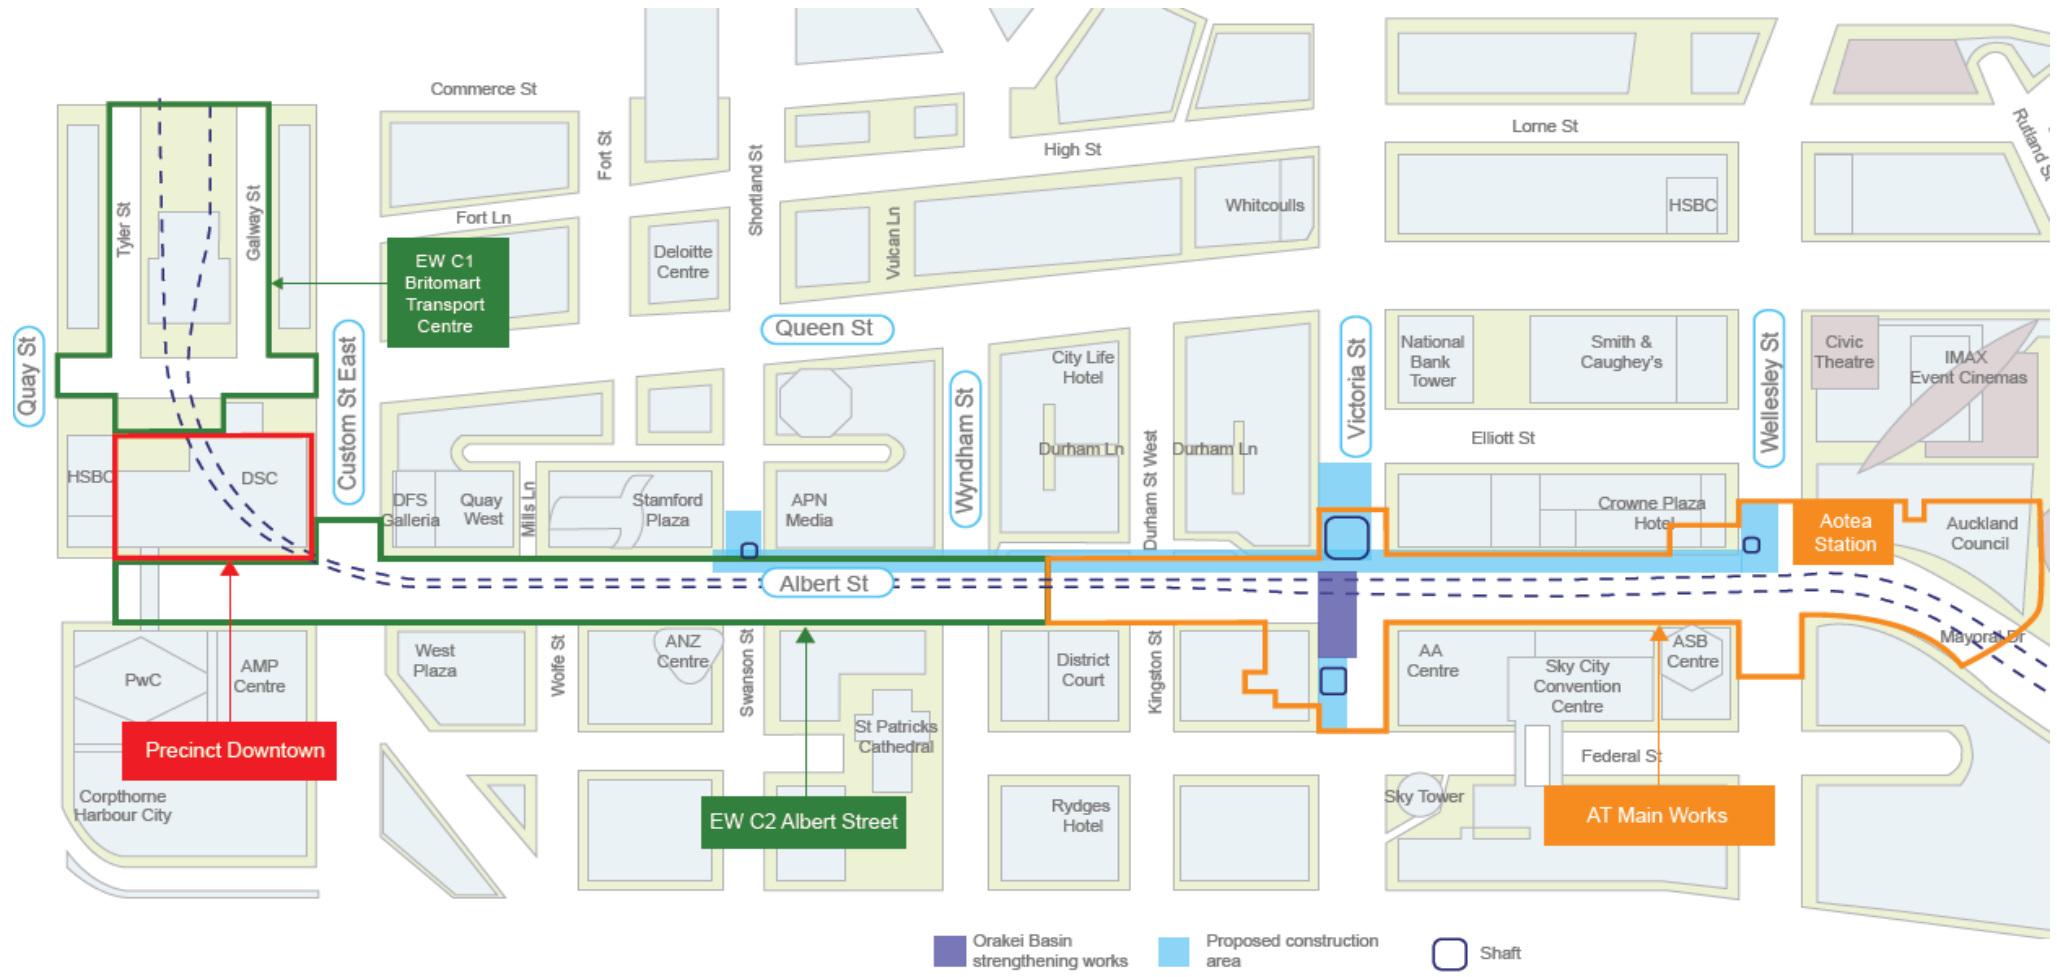

Transport leads development

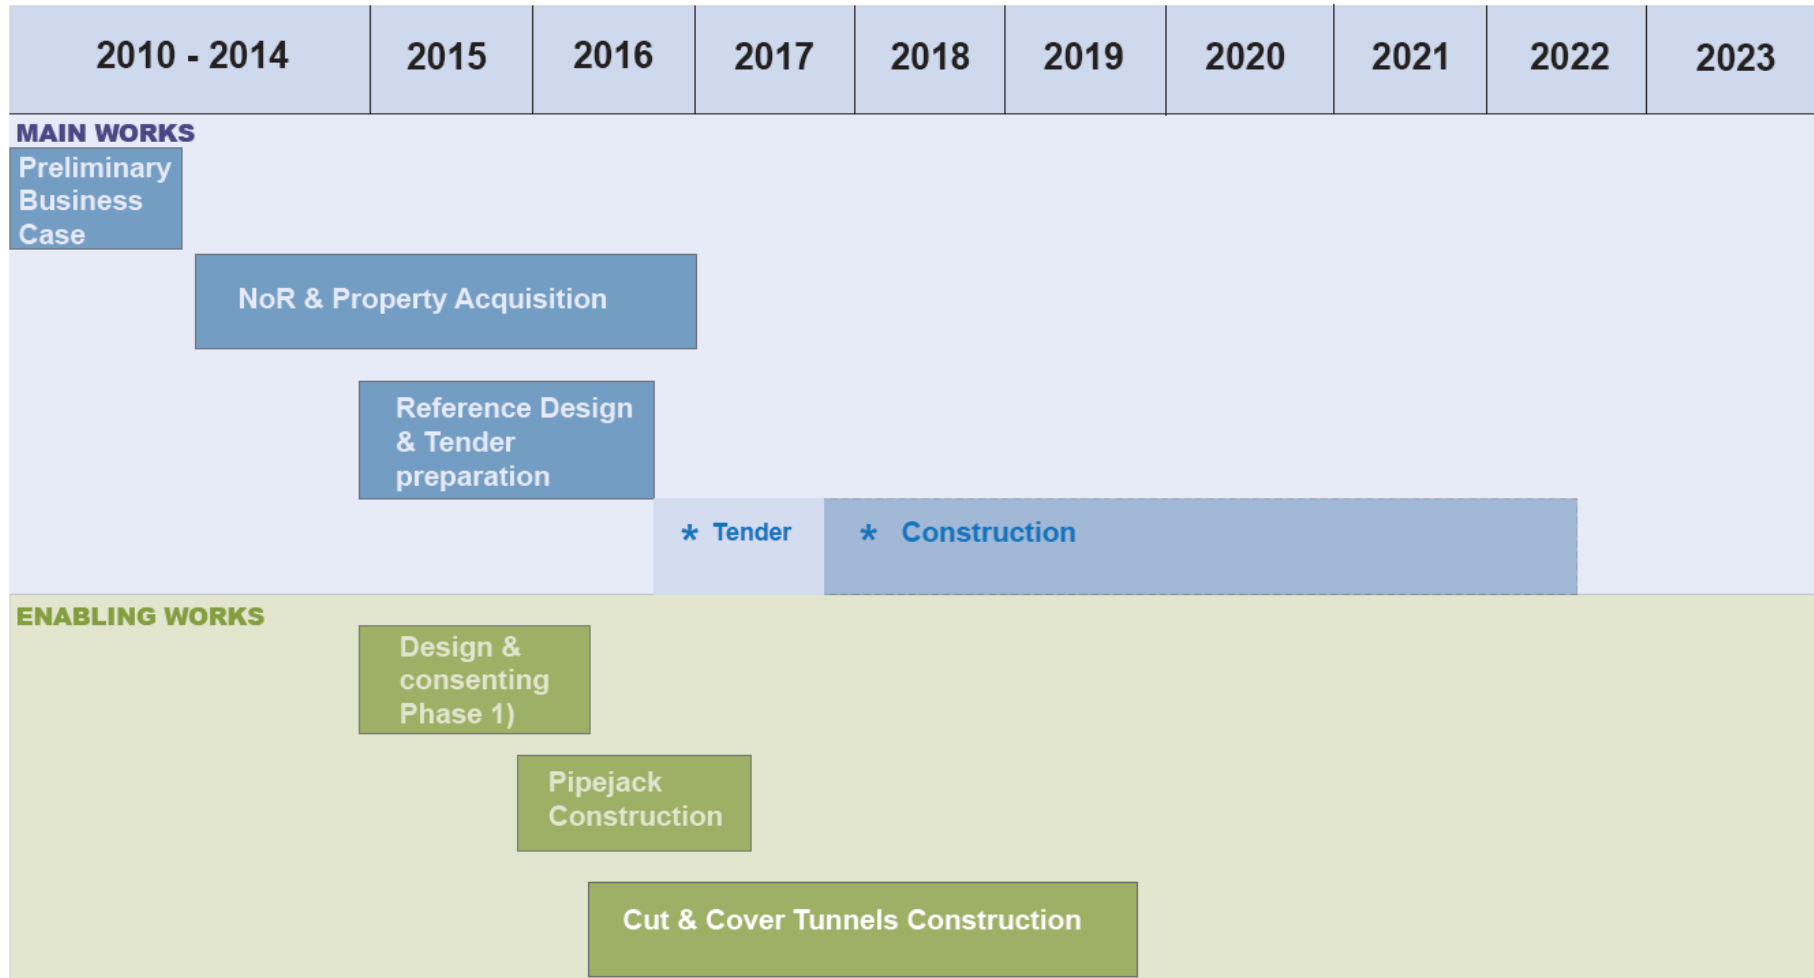

- Leading growth with transport infrastructure is vital to shaping the city
