

Integrated Transport Assessment Guidance

Is it Working?

Waka Kotahi are conducting research into current usage of and challenges with Integrated Transport Assessments (ITAs) in the process of development control. We are keen to get your feedback on whether the current guidance aligns with national policy direction and how we could do ITAs better.

Scan the QR code to participate in the survey.

How well does existing ITA guidance reflect current national policy?

Do ITAs address the challenges of vehicle emissions correctly?

How important is it to assess vehicle LOS in an ITA?

What is one of the biggest issues with preparing and assessing ITAs from your perspective?
